GeoPathways Initiative – 2018 - 2019

2018-2019 Interns

- 19 Students selected
- From 16 Universities

Projects

- Federated Geospatial Ecosystems
- Use case demonstrations for disasters
- Developing communities of practice
- GeoPlatform - testing and development
- GEO4SDGs - United Nations Sustainable Development Goals

Returning Students 2017-2018 Internship

Norman Dela Fuente
University of California, Los Angeles, CA

GIS Analyst at UCLA Center for Neighborhood Knowledge(CNK)

Sarishka Desai
Thayer School of Engineering at Dartmouth

Junior at Dartmouth studying the intersection of data analytics and healthcare technology & policy.

Jamie Fortin
Baylor University

I am passionate about serving my global community and would love to do so in an environment that challenges me to learn and grow.

McKenzie Hanlon
George Washington University, Washington, DC

Business Development and Marketing Coordinator at Green Powered Technology.

New Students 2018 – 2019 Internship

Haley Stoker
University of Florida

Student at the University of Florida

Collette Gibbons
California State University, San Marcos, CA

A highly dependable, strong will, and goal oriented technician with 5 years of military experience.

Jeff Lewis
University of Denver, Denver, CO

Supporting project initiatives and objectives focused on environmental management, sustainability, and nature conservation and preservation.

Isaac Graham
University of Florida

James Pednar
Westworth Institute of Technology

Engineering student at Westworth Institute of Technology

Laura Miller
University of Wisconsin-Madison

Undergraduate Research Scholar Program Fellow at University of Wisconsin-Madison

Mia Peynor
University of Southern California

Student

John Wendt
Montana State University

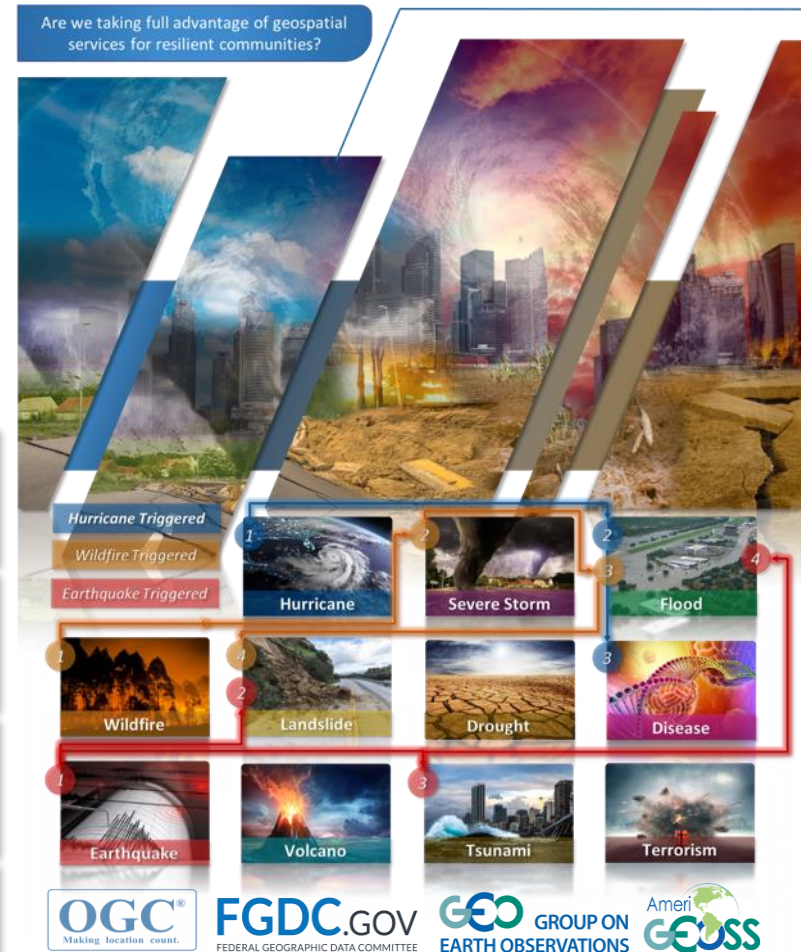

Student

Advancing Spatial Data Infrastructures for Disasters

Demonstrate how data standards help stakeholders and decision makers gain new and beneficial perspectives into social, economic, and environmental issues related to disasters

Goals and Objectives

Strengthen Partnerships	Increase and strengthen current partnerships and expand partnerships with additional stakeholders
Outreach & Education	Create awareness of the data and services stakeholders provides to support disaster preparedness/resilience
Address Needs and Gaps	Better understand community needs and close gaps in data, tools, services, skills and other barriers to using stakeholders and other institutional related services for disasters
Usability Pilots	Engage a broad community of users through interviews, workshops and pilots to use stakeholder data and services and provide stakeholder feedback on additional needs

OGC RFP closed May 7, 2019

COGO Report Card

- The Coalition of Geospatial Organizations (COGO) released its [2019 Report Card on the NSDI](#) in February. FGDC Theme Leads collaborated with COGO evaluators to help inform development of the Report Card.
- ***All grades for the NSDI Themes have improved since the 2015 Report Card.*** Report Card also includes the following key observations:
 - **“The FGDC has made significant progress in the NSDI since the publication of the 1st COGO Report Card.”**
 - **“The FGDC is employing a more consultative and cooperative approach to understand successes and shortcomings of the NSDI.”**
- FGDC will continue to collaborate with COGO organizations on future evaluations

2018 FGDC Annual Report

❖ 2018 FGDC Annual Report now available!

- To request print copies, email Lucia Foulkes at lfoulkes@usgs.gov

❖ Online Annual Report available for downloading both high-resolution and low resolution digital (.pdf) file formats at <https://www.fgdc.gov/resources/whitepapers-reports/annual%20reports/2018>
